Ghlee

Ghee Enhances Everything

Our loved ones enhance us and bring out our most authentic selves. Much like ghee, which has been used in cooking and caring for centuries.

Ghee blooms spices in a toasty tarka, boosts the immunity properties in turmeric milk, and helps to protect & soothe dry, cracked skin.

We work intentionally with ghee's healing and moisturizing properties to create our effective ghee based skincare. It's the perfect self-care treat for you, your special someone, or your wellness galentine.

Skincare that Heals

"Skincare that heals is what Ghlee Skincare is all about. Derived from South Asian practices, the brand makes its skincare with ghee — a type of clarified butter, originating from India — bringing an innovative, ultra-nourishing approach to traditional skincare."
